

Digital Portfolios and Wiki's....

the possibilities are endless

Presented by Shelly Main and Andrea Lusk

A Digital Portfolio is a Wiki that is used to...

- Share student growth and achievement
- Communicate
- Collaborate

The screenshot shows a digital portfolio page for a student named Olivia. The page is titled "Olivia's page:" and contains a bio: "Hi, I'm Olivia and I'm a student in Mrs. Main's class. I am 9 years old. My favorite stuff to do is soccer, acting, and dancing. My favorite subject in school is science. I have 6 pets: 1 dog named Daisy, 2 frogs named Heidi and Fufu, 1 cat named Rigsby, and 2 fish named Goldy and Princess. This page will show you some of the work I've been doing. Please make a comment using the discussion tab at the top of the page. ALSO PLEASE DO NOT EDIT OR CHANGE MY PAGE. THANK YOU!". Below the bio, there are links to "Olivia Plant Exp.ppt" and "Olivia.PDF". A photo of Olivia is shown on the right. The main content is a hand-drawn diagram titled "The Water Cycle By: Olivia". The diagram shows the cycle with four stages: Evaporation (sun heating water), Condensation (water vapor forming clouds), Precipitation (clouds raining or snowing), and Accumulation (water gathering in a body of water). Arrows indicate the flow from Evaporation to Condensation, then to Precipitation, then to Accumulation, and finally back to Evaporation.

Olivia's page:

Hi, I'm Olivia and I'm a student in Mrs. Main's class. I am 9 years old. My favorite stuff to do is soccer, acting, and dancing. My favorite subject in school is science. I have 6 pets: 1 dog named Daisy, 2 frogs named Heidi and Fufu, 1 cat named Rigsby, and 2 fish named Goldy and Princess. This page will show you some of the work I've been doing. What is a Wiki?

Why Digital Portfolio's and Wiki's?

- Engagement
- Student Centered
- Students get work published
- Reflection
- Green (paperless)
- 24/7
- You have control
 - Who can see your wiki
 - Who can edit your wiki
 - Who administers your wiki

21st Century Skills

"It's not about the technology, it is what you do with the technology that is important."

- Collaboration
- Communication
- Information and Media Literacy
- Self-direction
 - Set Goal, Monitor, Revise Goal, Reflect

Classroom Examples:

- Digital Portfolios
- Communication Tool for Parents
- Collaboration Tool for Teachers

What is a Digital Portfolio?

A Creative way to...

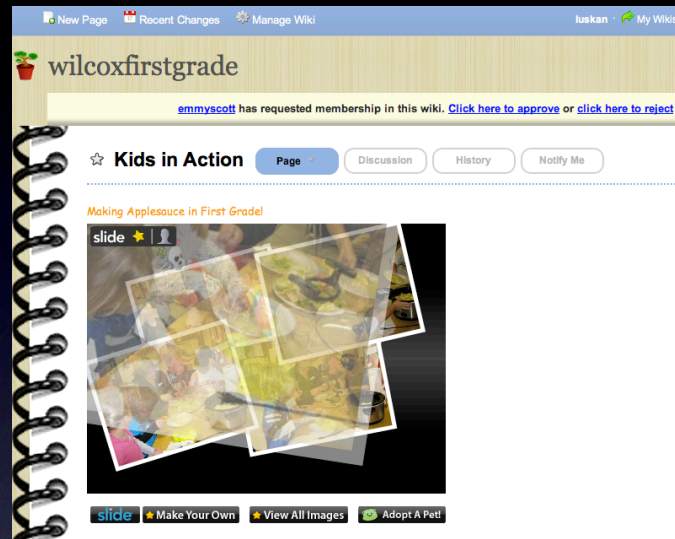

organize, summarize, reflect and share student projects including their range of abilities, attitudes, experiences, growth and achievements.

Mrs. Main's Class Wiki
